Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. §1.97, the art identified on the attached citation form and other matters discussed below may be helpful to the Patent Office in its examination of the application identified above. A copy of the foreign reference is enclosed.

The order of listing of the art on the attached Citation Form should not be construed as an indication of the importance of the listed art.

The Patent and Trademark Office Examiner is requested to review the art and determine the extent of the materiality of the disclosures thereof with respect to the patentability of the subject invention. It is expected that the Patent and Trademark Office Examiner will independently conduct a complete search for relevant prior art.

No inference should be drawn and no representation is made or intended: (a) that a search has been made, or if made, was complete; (b) that the art on the attached list

presents a comprehensive investigation of the prior art; or (c) that art no more pertinent than that is in existence. [See 37 C.F.R. §1.97(g)]

Citation of any art herein is not to be construed as an admission: (a) that the art disclosure is, or is considered to be, necessarily within the invention field of endeavor, pertinent to the instant invention, or equivalent to the instant invention; (b) that the art disclosure is, or is considered to be, necessarily prior in time to a particular date which may be relevant in the instant patent application; (c) that the art disclosure is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b); (d) that the art disclosure is otherwise necessarily prior art with respect to the instant invention and application; and/or (e) that the information, protocols, results and the like reported by third parties are accurate or enabling. [See 37 C.F.R. §1.97(g)]

No inference should be drawn that the discussion of any art herein is a discussion of each and every feature disclosed therein.

Also, there is reserved the right to later set forth how the instant invention is distinguished over the disclosures of any document or other art, including the disclosures of the art cited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

The fee required under 37 CFR §1.97(c)(2) and 37 CFR §1.17(p) is also submitted herewith.

If any additional fees are required in connection with this submission, please charge our Deposit Account No. 23-0785.

Respectfully submitted,
